

# YEKINI SODIQ O.

>>> SOFTWARE DEVELOPER

Sodiq

Software Developer

## PERSONAL SUMMARY

Software Developer with expertise in backend engineering and a growing proficiency in frontend technologies. Experienced in designing and building secure, scalable, and high-performance applications. Strong background in Node.js, Express, MongoDB, and Prisma, with hands-on experience in React for frontend development. Adept at troubleshooting complex technical issues, optimizing system performance, and integrating innovative solutions. Passionate about building seamless user experiences and efficient system architectures.

## CONTACT INFO

Address: No 2, OGD Estate, Asero,  
Abeokuta, Ogun State. Nigeria  
Phone: 08160398979  
Email: sodmaq@gmail.com

## HARD SKILLS

- Proficient in Html, Css, JavaScript, Typescript
- Node.js, Express.js, ReactJs
- Tailwind.Css
- MongoDB, Redis, TypeORM, Sequelize
- GitHub , Unit Testing
- DevOps; AWS/DigitalOcean/Linode

## SOFT SKILLS

- **Problem-Solving:**

Analyzed and resolved complex backend challenges, ensuring the smooth operation of web applications.

- **Communication:**

Conveyed technical concepts to non-technical stakeholders and provided clear project updates.

- **Critical Thinking**
- **Continuous Learning**
- **Time Management**
- **Team Player**

## ACADEMIC BACKGROUND

### FEDERAL SCHOOL OF STATISTICS

National Diploma | COMPUTER SCIENCE  
2017- 2019

- **HONOUR:** Distinction

### FEDERAL POLYTECHNIC ILARO

Higher National Diploma | COMPUTER SCIENCE  
2020-2022

- **HONOUR:** Distinction

## WORK HISTORY

### Mid Level Backend Developer

CV SPAN | 2023-2025

- Contributed to the development of RESTful APIs for the LMS project, ensuring secure, scalable, and efficient communication between the frontend and backend systems,
- Wrote unit tests with Chai and Mocha, practicing Test-Driven Development (TDD) to maintain code quality.
- Utilized Sequelize ORM to manage database interactions, migrations, and model relationships.
- Documented APIs with Swagger for seamless frontend-backend integration

### Remote Junior Backend Developer

Tekvolution | 2022-2023

- Developed RESTful APIs using Node.js, Express, and TypeScript to connect users and service providers for easy service bookings.
- Used TypeORM to handle database migrations, entities, and relationships, improving data management and querying efficiency.
- Built APIs for service booking, payment processing, and feedback systems, enabling seamless user experiences.
- Integrated payment gateways BudPay for secure online transactions and handled payment status updates in real-time.

### Computer Engineer.

Ancestor Computer Technology | 2017-2019

- Diagnosed and repaired hardware issues in laptops and desktop computers,
- Conducted software troubleshooting and resolved issues related to operating systems, applications, and drivers.

### Web Design Intern

Ancestor Computer Technology | 2020-2021

- Created visually appealing and responsive website designs, ensuring optimal user experience across various devices and screen sizes.
- Integrated and configured WordPress plugins to enhance website functionality
